

Mission Statement

Opta Home Health Care of Colorado's mission is to provide professional and paraprofessional services to clients in their homes, assisting them to achieve the highest level of potential in their activities of daily living.

We are committed to providing high-quality, multidisciplinary care by professionals who recognize the need for comprehensive assessment of needs from both the client and professional's point of view.

Our Objectives

- To provide the full range of professional and paraprofessional services necessary to assist the individual to arrive to the level of performance where he/she will assume full or partial responsibility for his/her personal needs.
- To provide services under the direct supervision of qualified professional staff.
- To provide the individual patient and his/her family with the training necessary to maintain or improve the health status of the patient beyond the scope of the Agency.
- To provide a coordinated team approach to care through a controlled system of referral and feedback.
- To participate in an Outcome-Based Quality Improvement Committee.

Optimal Medical and Non-Medical Care at Home

Opta Home Health Care of Colorado provides medical and non-medical home care to the Denver area. Our services are designed with one thing in mind: helping individuals remain independently and comfortably at home, whether they are just returning home from surgery or need longer term assistance with activities of daily living. **We strive to:**

- ♥ Provide a high quality of comprehensive health care services through a coordinated plan of treatment to the ill, aged, and disabled residents of the community.
- ♥ Provide continuity of health care services in the referral mechanism to facilitate uninterrupted care for the individual patient within the health care system.
- ♥ Provide the psychological and rehabilitative stimuli for early recovery of the maximum rehabilitation of the individual in the home environment.
- ♥ Provide appropriate environmental change in those situations where such action is indicated for the promotion and maintenance of health of the individual and his family.
- ♥ Provide positive channels of communication with the physicians, health and welfare agencies and the residents of the community.
